**209 \$180 Ecstatic Community**

*Donated by Lisa Breckinridge and Ecstatic Productions*

Dreaming of live music again? While we aren't sure when it will happen again, we are all hanging on to the hope of the day when we are getting our eardrums massaged by loud bass, squealin' guitars, kick drums, acoustic jams, soulful harmonies, or foot stompin' bluegrass. The wonderful guys at Ecstatic Productions have graciously donated two tickets to an upcoming show in 2021. Ecstatic Productions has brought many great acts to Olympia including Molly Tuttle, Ron Artis, Ghost Note & Maceo Parker. Ecstatic Production's mission is to bring nationally & internationally touring musicians to Olympia's thriving music audience while showcasing regional artists as openers to share the stage. Ecstatic Productions brings community to Olympia's music scene by donating a portion of the proceeds from each event to a different featured local non-profit organization...What's not to love about that?

While we are talking about community, this package is paired with a fabulous community gathering place and eatery. Octapas cafe has been a great addition to our food culture in Olympia. Octapas has been a supporter of our CFLT community since their doors opened as both an advertiser & sponsor in the farm map over the past two years. In addition, they sponsored a farm listing in the map this year for a farm that couldn't afford it. We are excited to see what they have in store for us in their new location on Water Street overlooking Capitol Lake! Let's return the favor by showing them what community is about!

**212 \$250 Iris this was Mine**

*Donated by Cheryl Wilson*

This painting of an Iris, by Cheryl Wilson, is done in mixed media with watercolor & colored pencil. This is part of a series of 4 paintings with a multicolor, poured watercolor background and different flowers.

Artist Statement : I have been drawing & painting in colored pencil for many years. I started because I worked full time & could paint for a short time & not have to clean up or care for the wet media. I could come back to it whenever I had a few minutes. I stayed with it after retirement because I can achieve the depth of color & details that I love in any scene or object. I love flowers, old barns, old cars & trucks, & items that have a patina of age. Colored pencil is coming into its own with top quality pencils & photo realistic paintings including a range of portraits of people & animals, as well as landscapes & still life. I tend to like the more painterly approach rather than photo realism of many colored pencil artists, however. I also love pen & ink, particularly walnut ink, & use old scenes and objects for this medium. My husband and I moved to Olympia 3 years ago to be closer to family. I am part of the Olympia Art League and the Thurston-Lewis Urban Sketchers. We love it here and I love finding new and interesting places to sketch with my friends. Hopefully, before my dog gets too old, I will have done a portrait of him, too.

Beautifully, custom framed two layer screen print, 'We are in this Together' by Bec Young. Bees could get along just fine without humans, but it sure isn't true the other way around. We need to bring bees and other vulnerable species to the forefront, changing our focus to what sustains life.

This is the third edition of this print and was printed by Ocelot print shop in Detroit. Please note that it is smaller than previous editions. The paper is a vegan parchment-esque paper with darker specks throughout.
